Section 1. Infection Prevention Supplies

Instructions: Direct these questions to the nurse in charge. All items should be observed. The following questions will ask about the availability of various items for infection prevention. For the following questions you should first assess if the item is available today. If no item is available, select “**not available today**”. If the item is available today and has not been out of stock in the last four weeks, select “**available today and no stockout in last 4 weeks**”. If the item is available today, but there has been a stock out at any point in the last four weeks, select “**available today, but stockout in last 4 weeks**”.

1A. Infection Prevention Supplies

No.	Item	Response
Infection Prevention Basic Items		
1.01	Does the neonatal unit have the following?	
1.01a	Soap	☐ Available today and no stockout in last 4 weeks ☐ Available today, but stockout in last 4 weeks ☐ Not available today
1.01b	Antiseptics	☐ Available today and no stockout in last 4 weeks ☐ Available today, but stockout in last 4 weeks ☐ Not available today
1.01c	Disposable latex examination gloves	☐ Available today and no stockout in last 4 weeks ☐ Available today, but stockout in last 4 weeks ☐ Not available today
1.01d	Heavy duty gloves	☐ Available today and no stockout in last 4 weeks ☐ Available today, but stockout in last 4 weeks ☐ Not available today
1.01e	Non-sterile protective clothing	☐ Available today and no stockout in last 4 weeks ☐ Available today, but stockout in last 4 weeks ☐ Not available today
1.01f	Bleach or bleaching powder (e.g., chlorine)	☐ Available today and no stockout in last 4 weeks ☐ Available today, but stockout in last 4 weeks ☐ Not available today
1.01g	Prepared disinfection solution	☐ Available today and no stockout in last 4 weeks ☐ Available today, but stockout in last 4 weeks ☐ Not available today
1.01h	Mayo stand (or equivalent to establish sterile field)	☐ Available today and no stockout in last 4 weeks ☐ Available today, but stockout in last 4 weeks ☐ Not available today
1.01i	Surgeon's handbrush with nylon bristles	☐ Available today and no stockout in last 4 weeks ☐ Available today, but stockout in last 4 weeks ☐ Not available today
1.01j	Mop	☐ Available today and no stockout in last 4 weeks ☐ Available today, but stockout in last 4 weeks ☐ Not available today

4. Neonatal Equipment and Supplies (Clinical Competencies)

Instructions: For the following questions you should first assess if the item is available today. If no item is available, select “**not available today**”. If the item is available today and has not been out of stock in the last four weeks, select “**available today and no stockout in last 4 weeks**”. If the item is available today, but there has been a stock out at any point in the last four weeks, select “**available today, but stockout in last 4 weeks**”.

For items with an asterisk (*) next to them, also write the total number of items available, followed by the number of functional items and the manufacturer/model name (not serial number). If there are more than 10 items, please write the most common manufacturer and model names. Determining functionality will vary by item. For some, simply turn on the item to see if it works. For the oxygen concentrators, measure the actual oxygen output of each device. For the phototherapy lights, measure the irradiance of each unit. An item is not functional if it is in need of repair. Do not leave any variable blank.
