Section 1. Policies and Training

Instructions: Direct these questions to the nurse in charge. Please ask the nurse in charge if the following guidelines for respectful and family-centred care are available. If a guideline is available, continue to ask if it is easily accessible. All guidelines must be seen in order to select "Yes" to being available and to being easily accessible. In order to select "Yes" to easily accessible the nurse must know where the guideline is stored and be able to retrieve it quickly. Note that some of these guidelines might be found on the labour and delivery ward. If any guideline is part of a larger protocol, that counts as being available.

Prompt: "I'd like to ask you a few questions about the facility's policies and training for respectful and family centred care."
